OTC Trading

Madison Six j. s. a. provides over-the-counter (OTC) crypto-asset trading services based on individually agreed transaction terms and prices.

The price offered to the client is based on the volume-weighted average price (VWAP) of the relevant crypto-asset and includes a 0.40% spread markup.

In addition to the spread markup, a transaction fee of 1.20% of the transaction value is charged.

The applicable transaction price and the transaction fee will be communicated to the client before the transaction is executed.

The applicable price, including the spread markup, will be determined based on the relevant market price and will be available to the client before the transaction is executed.

The spread depends primarily on:

- the type of crypto-assets
- market liquidity,
- market volatility.

The client is always informed of the final transaction price before the transaction is executed.

Other fees associated with the provision of crypto-asset services:

Provision of custody and administration of crypto assets	Free of charge
Fee for depositing funds	Free of charge
Fee for withdrawing funds	Free of charge
