TERMS AND CONDITIONS OF THE RECOMMEND & EARN PROGRAMME

REFERRAL PRO

Effective from: 12.11.2026

1. General Provisions

1.1. These Referral Pro Terms and Conditions (the "**Referral Pro Terms**") govern participation in the Referral Pro programme operated by **Madison Six j. s. a.**, with its registered office at Slávičie údolie 106, 811 02 Bratislava, Slovak Republic, Company ID No. 56 856 229, registered in the Commercial Register, Section Sja, Insert No. 381/B ("**Madison Six**").

1.2. Referral Pro forms part of the "**Recommend & Earn**" programme made available through the crypto4me platform and website ("**crypto4me**" or the "**Platform**").

1.3. Referral Pro provides eligible Participants with recurring monthly rewards based on their Trading Volume and the Trading Volume generated by Active Participants within their Referral Network.

1.4. Participation does not guarantee any reward merely for referring another person or maintaining a particular number of referrals.

1.5. Voluntary Participation and Independent Trading Decisions

Participation in Referral Pro is voluntary. Participants are not required to execute any transaction or achieve any minimum individual Trading Volume in order to continue using the Platform or access its ordinary services. Nothing in Referral Pro is intended to encourage Participants to execute transactions that they would not otherwise consider appropriate for their own purposes. Participants remain solely responsible for their trading decisions and should not trade solely for the purpose of obtaining a reward.

2. Definitions

2.1. **Participant** means a person with a registered crypto4me account participating in Referral Pro and has successfully completed KYC verification.

2.2. **Referrer** means a Participant who refers another person to crypto4me using a valid Referral Link or Referral Code.

2.3. **Referee** means a person who registers with crypto4me using a valid Referral Link or Referral Code.

2.4. **Referral Network** means the network of Participants connected through direct or indirect Referral Relationships. A Participant may therefore be a Referee in relation to one Participant and a Referrer in relation to others.

2.5. **Active Participant** means a Participant within the relevant Referral Network who:

a) has successfully completed KYC verification; and
b) has completed at least one Eligible Convert Transaction during the applicable calendar month, regardless of the transaction value.

2.6. Trading Volume means the aggregate EUR value of Eligible Convert Transactions completed by a Participant during the applicable calendar month, or the EUR equivalent determined by crypto4me. Only transactions executed through the Convert service, as defined in Clause 2.9, shall qualify as Trading Volume for the purposes of Referral Pro. Transactions executed through any other service, product, interface or trading channel of crypto4me shall not be included.

2.7. **Referral Network Volume** means the combined Trading Volume of the relevant Referrer and all Active Participants within that Referrer's Referral Network.

2.8. **Reward Pool** means the maximum aggregate reward available for distribution within a Referral Network for the applicable calendar month based on the highest Milestone achieved.

2.9. Convert means the self-service crypto-asset exchange functionality made available by Madison Six through the crypto4me Platform under which a Participant may initiate and complete an eligible exchange transaction using the functionality designated as "Convert" by crypto4me. For the avoidance of doubt, Convert does not include transactions executed through Pro Trading, the OTC Desk or any other separate trading service or channel offered by crypto4me.

3. Eligibility and Referral Network

3.1. A Participant must have a registered crypto4me account and successfully complete KYC verification in order to receive a Referral Pro reward.

3.2. There is no numerical limit on the number of persons a Participant may refer under Referral Pro.

3.3. A Referee may subsequently refer further clients using their own Referral Link or Referral Code. Such referrals may form part of the wider Referral Network in accordance with the referral structure maintained by crypto4me.

3.4. A person who has already registered with crypto4me may not subsequently register as a Referee through another person's Referral Link or Referral Code unless expressly permitted by crypto4me. Each Participant may be a member of only one Referral Network and may not simultaneously or subsequently join another Referral Network.

4. Monthly Reward Milestones

4.1. Referral Pro rewards are calculated separately for each calendar month.

Referral Network Volume	Reward Pool	Minimum Active Referees
25,000 EUR	100 EUR	2
32,500 EUR	200 EUR	2
50,000 EUR	350 EUR	3
70,000 EUR	600 EUR	4
100,000 EUR	1,000 EUR	5

4.2. To qualify for a Reward Pool, both the applicable Referral Network Volume and minimum number of Active Participants must be reached.

4.3. Only the **highest Milestone achieved** during the applicable calendar month determines the Reward Pool.

4.4. Reaching a particular volume without satisfying the required number of Active Participants does not qualify the Referral Network for that Milestone.

4.5. For the purposes of determining whether a Milestone has been achieved, only Trading Volume generated through Eligible Convert Transactions shall be taken into account. Trading activity conducted through any other crypto4me service, including Pro Trading and the OTC Desk, shall not contribute to the Referral Network Volume or the achievement of any Milestone.

5. Reward Distribution

5.1. The Reward Pool is distributed proportionally among the Referrer and all Active Participants within the applicable Referral Network based on their contribution to the total Referral Network Volume.

5.2 EXAMPLE:

Participants	Volume
Referrer	€25,000
Referee A	€20,000
Referee B	€15,000

Participants	Volume
Referee C	€10,000
Referee D	€10,000
Referee E	€20,000

Total Network Volume: €100,000
Reward Pool: €1,000

Each participant receives a share of the €1,000 reward proportional to their contribution to the total Referral Network Volume via the simple formula Referrer's (Referee's) volume / Network Volume * Reward Pool

5.3. A Participant who has not generated eligible Trading Volume during the applicable month shall not receive a share of the Reward Pool.

5.4. The Reward Pool is the maximum aggregate amount available for the relevant Referral Network and month and is not a guaranteed reward for any individual Participant.

5.5. The maximum monthly Reward Pool is **1,000 EUR per Referral Network**. Trading Volume above 100,000 EUR does not increase the Reward Pool.

6. Calculation and Payment

6.1. Each calendar month constitutes a separate calculation period. Trading Volume and the number of Active Participants are determined separately for each month.

6.2. Trading activity may count towards Referral Lite and Referral Pro simultaneously only where the relevant transaction qualifies under the terms of both programmes. For Referral Pro, only Eligible Convert Transactions shall be taken into account, irrespective of whether the same transaction may qualify for Referral Lite.

6.3. Rewards are credited automatically following completion of the monthly calculation and verification of eligibility.

6.4. Rewards are paid in the form of a **crypto packages selected by Madison Six/crypto4me for the relevant period**.

6.5. The composition of the crypto package may differ between individual periods. The EUR value of the applicable Reward Pool is used for calculating the reward allocation, while the actual reward is credited in the applicable crypto-assets.

6.6. Rewards are normally credited on the next business day following completion of the monthly calculation, subject to verification and technical processing.

6.7. Any estimated reward displayed in the crypto4me interface is indicative only and does not constitute a final entitlement until the relevant calculation has been completed.

7. Prohibited Activities and Abuse

7.1. Participants must not use Referral Pro for fraudulent, abusive, manipulative or artificial purposes.

7.2. Prohibited activities include, in particular:

a) self-referral;
b) duplicate or multiple accounts used to obtain additional rewards;
c) creating or operating accounts on behalf of another person to circumvent programme rules;
d) wash trading or artificial generation of Trading Volume;
e) market manipulation;
f) coordinated activity designed to artificially satisfy Milestone requirements;
g) manipulation of the referral hierarchy; or
h) any other conduct reasonably considered by Madison Six to constitute abuse or misuse of the programme.

7.3. Madison Six may verify trading activity, KYC status, referral relationships and other eligibility requirements.

7.4. Where a breach or abuse is identified, Madison Six may, to the extent permitted by law, exclude transactions from the calculation, withhold or delay a reward, cancel or reverse a reward already credited, require repayment of an improperly credited reward, or exclude the Participant from the programme.

7.5. These rights are without prejudice to any rights available to Madison Six under applicable AML/KYC requirements, the crypto4me Terms and Conditions or applicable law.

7.6. Only genuine, completed and eligible exchange transactions executed through the Convert service shall qualify as Eligible Convert Transactions and be included in the calculation of Trading Volume. Transactions executed through any other crypto4me service or trading channel, as well as cancelled, reversed, fictitious or artificially generated transactions, shall not qualify.

7.7 Madison Six may exclude transactions where there are reasonable, objectively justifiable grounds to suspect wash trading, self-referral, coordinated activity intended to artificially increase Trading Volume, circumvention of the Programme rules or other abusive conduct.

7.8 Madison Six may request reasonable additional information where necessary to verify eligibility. Any decision affecting a Participant's reward shall be recorded internally, together with the relevant grounds.

8. Changes, Suspension and Termination

8.1. Referral Pro is established for a fixed period ending on **30 April 2027** ("Initial Period"). Madison Six may extend the duration of Referral Pro for one or more additional periods by publishing a notice on the crypto4me website or by other suitable means.

8.2. Madison Six may amend the terms of Referral Pro, including the Milestones, Reward Pools, eligibility requirements, calculation methods, the definition of Active Participant and the composition of crypto reward packages, for legitimate business, operational, technical, legal or regulatory reasons.

8.3. Madison Six may terminate Referral Pro at any time without stating a specific reason by giving participants at least **30 days' prior notice**, published on the crypto4me website or communicated by other suitable means.

8.4. Notwithstanding Clause 8.3, Madison Six reserves the right to suspend or terminate Referral Pro, in whole or in part, with immediate effect and without observing the notice period where serious reasons so justify, including where necessary to comply with applicable law or regulatory requirements, prevent fraud, abuse or manipulation, address material security or operational risks, or protect Madison Six, its clients or the integrity of the programme.

8.5. Any suspension, termination or extension of Referral Pro shall be communicated through the crypto4me website or other suitable means. The relevant notice shall specify the effective date, where applicable.

8.6. Unless otherwise required by applicable law, amendments, suspension or termination of Referral Pro shall not retroactively affect rewards for which all applicable conditions had been finally fulfilled before the effective date of the relevant amendment, suspension or termination. Any rewards that have not yet been earned in accordance with the applicable terms by that date shall remain subject to the conditions in force at the relevant time.

Final Provisions

These Referral Pro Terms supplement the applicable crypto4me Terms and Conditions and other relevant legal documents.

If any provision is invalid or unenforceable, the remaining provisions remain unaffected.

The current version of these Referral Pro Terms is available in the Legal Information section of the crypto4me website.

By participating in Referral Pro, the Participant confirms that they have had an opportunity to review these Referral Pro Terms and agrees to comply with them.
